I am 37 a Diesel Mechanic/Engineer and have lived in Collie on an off for 18 years and raised a family of three here.

I believe Collie has the potential to be a jewel of the state with growing industrial and tourism opportunities that can be brought to our door, with that I would strive for incoming businesses to hire local workers to aid in boosting local economy and job growth.

I believe in transparency and accountability of Local Government and feel that there needs to be more done to promote harmony and conversation between community and government.

I will show strong support for our local volunteers and sporting groups with an aim to increase youth activities in our community.

I have respect for cultural heritage and would promote local tourism that embraces and includes first nations peoples.

I believe I can, and will, help Collie transition into the future while respecting its past, whether it be continuing mining coal, renewable energy adoption or whatever will come next.
