

Additional Information

My work with people of many walks of life have given me the skills to work with people in a helpful and understanding way to achieve the best outcome that ensures the social fabric of the community. This has come having run my own business for 15 years and serving as President of a board and being on other boards in various roles. As part of these I have been successful in gaining grants to help fund their operations. I have been a volunteer for groups like Lions and other community based organisations for 40 years. My purpose is to assist local community and see that necessary services are provided and maintained.
